EDUCATION

Diablo Valley College — Pleasant Hill, CA

Aug 2025 – Jun 2027

- Phillip Howe Scholarship (\$2,000); Manuel Gonzales Merit Scholarship (\$350).
- A.S. Electrical Engineering & Computer Science, EECS transfer pathway. GPA: 4.0. Transfer targets: UC Berkeley, Stanford, Princeton, Fall 2027.
- Coursework: COMSC 110, COMSC 140, COMSC 165, MATH 192/193, PHYS 129/130.

Wesley College — Perth, Australia

Apr 2021 – Dec 2024

- Ranked #1 private high school in Australia (Schools360, 2026). Computer Science Prize (#1 of 110); Academic Excellence (top 1%, x2); Gold Endeavour (top 1%, x3); Co-Founder, Wesley Coding Club.

Wen Dao Xue Xiao — Rural China

Feb 2025 – Jul 2025

- Traditional Chinese medicine and herbology residential immersion. Lived in a rural farming community on a 5 a.m. to 9 p.m. daily schedule for 3 months: farmed potatoes, rice, carrots, and strawberries, laid bricks, and lived communally with minimal modern comforts. Studied Chinese language, taichi, and wushu.

FOUNDER EXPERIENCE

Founder, Unvibe

May 2026 – Present

- Solo founded and built Unvibe, a Mac and Windows desktop tool that explains AI generated code in place through a Command+U shortcut, helping developers understand and own code they did not write themselves.
- Grew private beta to roughly 20 active users and 50+ direct developer feedback contributors; used pointed user criticism to reposition the product from a code explainer toward a GitHub connected engineering knowledge layer for AI assisted teams.
- Secured \$230K+ in non-cash startup program credits from GitLab, Mixpanel, PostHog, AWS, Google Cloud, and MongoDB, and was accepted into Claude for Startups.
- Covered in FounderMag's [Unvibe Launches a Desktop 'Understanding Layer' for AI-Written Code](#) (July 20, 2026); built founder led growth and customer research systems across GitHub and developer communities.

Founder & CEO, Regrade

Mar 2026 – Jul 2026

- Solo built an AI grade appeal app with a Claude/Gemini backend that analyzes rubrics and graded work and drafts evidence based appeal messages; grew to 30+ waitlist signups.

RESEARCH

Independent Researcher, Diablo Valley College — Advisor: Prof. Kyu Woong Lee

Jan 2026 – Present

- "[Reward Shaping for Accessible AI Tutoring in Community Colleges](#)", targeting arXiv and the Journal of Student Research.
- Built and benchmarked vanilla and reward shaped Q-learning agents in Python (Gymnasium, NumPy, SciPy) across 5 seeds and 4 window sizes on FrozenLake-v1, entirely on a consumer laptop with no GPU.

PROFESSIONAL EXPERIENCE

Lead AI Systems Architect, Parinama Group

Jun 2026 – Aug 2026

- Architected automation and agentic AI/RAG pipelines across a four vertical business group (driving, academy, consulting, operations), integrating WATI, Calendly, and Astra AI.
- Managed and built additional company websites, improving design and usability by an estimated 100% over the original site.
- Ran customer support and website automations that successfully served 300 customers.

Senior Web Application Developer, Wosado Australia

Jun 2025 – Jul 2026

- Built and maintained an e-commerce site for an Australian beauty brand, owning product pages, purchasing flow, UX, and backend operations; supported \$7K+ in sales.

Web Application Developer, Aiko Matcha

Jun 2025 – Present

- Built and maintained an e-commerce site for a small matcha business, contributing to thousands of dollars in sales through sales flow optimization and logistics coordination.

Math Tutor, Diablo Valley College Tutoring Center

Apr 2026 – Present

- Supported 50+ students with math coursework and problem solving strategy; completed MATH 140 Tutor Training with an A.

LEADERSHIP

Google Developer Group (GDG) at DVC | Software Engineer Officer, then President

Sep 2025 – Present

- Grew the club to 50+ active members while serving first as a project engineer, then as President.

- Increased recurring, returning-member attendance by roughly 25% above typical turnout through structured project programming.
- Built 5 club projects and organized an internal hackathon for members.

DVC International Students Club (ISC) | Vice President

May 2026 – Present

- Run a club that averages roughly 70 attendees per meeting.
- Built event slide decks and a sign-in and attendance system, and estimate this raised overall meeting production efficiency by about 50%, effectively running club operations without an elected president.

Code the Change (CTC) | Vice President & CTO (Project Leader, Sep–Dec 2025)

Jun 2026 – Present

- Led development of a nonprofit client's website, an estimated 100% increase in the organization's online visibility and traffic.
- Mentored 20+ student developers on the social impact software build.

Rotary International (DVC) | Chief Technology Officer

Jun 2026 – Present

- Support the club's technology and digital infrastructure needs.

Alpha Gamma Sigma Honor Society | Executive Secretary / Webmaster

Sep 2025 – Present

- Maintain the chapter website and support communications for 109+ honors students.

Backboard.io | College Ambassador

Aug 2026 – Present

- Selected as one of 25 campus ambassadors nationwide (competitive selection); support outreach and community engagement.

PERMIAS Nasional | Promotion and Production

Mar 2026 – Present

- Manage merchandise design, vendor coordination, and Instagram content for a national Indonesian student organization with 10K+ followers.
- Handle graduation merchandise logistics nationwide, up to 500 orders across the US, coordinating \$1K+ in transactions with vendors and buyers.

Also: Executive Treasurer, Science & Engineering Society; ICC Representative (SNES, Omega Leo, Crypto Academy); Engagement Coordinator, Toastmasters International; Event Organizer Officer, Indo DVC.

CERTIFICATIONS

Stanford University (Coursera): Supervised Machine Learning: Regression and Classification; Advanced Learning Algorithms (Machine Learning Specialization).

Anthropic: Claude Code in Action (Claude Skills).

Hugging Face: AI Agents Fundamentals (Agentic AI Development, AI Agents).

Great Learning: Vibe Coding with AI Tools, and Cursor AI (Cursor AI, Error Analysis, Claude Skills, Google Gemini).

Alison: Basics of Prompt Engineering (Prompt Engineering, Prompt Design).

Digital Workforce: Understanding Agentic AI (Agentic AI Development, AI Agents).

Google (NexusEdge): Introduction to Generative AI, Intro to LLMs and Responsible AI, Building Apps and Media with AI Studio, Sending Professional Emails.

Hack Social 2026: Certificate of Participation.

AWARDS & HONORS

SF Hacks 2026 (3 awards); Mega Hackathon 2026 (Best Gaming Hack, top 1% of 950+); Curtin University Gen AI Hackathon 2026 (1st place); Gemini AI Live Agent Hackathon (top 1% of 12,000+).

Computer Science Prize (#1 of 110); Academic Excellence (top 1%, x2); Gold Endeavour (top 1%, x3); Duke of Edinburgh Bronze. Phillip Howe Scholarship (\$2,000); Manuel Gonzales Merit Scholarship (\$350); 4.0 GPA.

TECHNICAL SKILLS

Languages: Python, C/C++, JavaScript, TypeScript, HTML/CSS, SQL.

AI/ML: Reinforcement Learning, Q-learning, reward shaping, agentic AI, RAG pipelines, prompt engineering, computer vision, Gemini/Claude/OpenAI APIs, TensorFlow, OpenCV.

Frameworks / Cloud: React, React Native, Next.js, Node.js, FastAPI, Firebase, Supabase, MongoDB, Google Cloud Run, Vercel, Docker.

Tools: Git/GitHub, Cursor, VS Code, Figma, Canva, Wix, Shopify.

ACTIVITIES & COMMUNITY SERVICE

Taekwondo, First Taekwondo Dojo, Perth, Australia (Mar 2023 – Dec 2024): progressed from 10th Geup (White Belt) to 5th Geup (Blue Belt) over two years, mastering 8+ Taegeuk pattern forms through consistent practice.

Team Captain, Wesley College, 3rd Division Perth: Soccer (2023–2024), Volleyball (2024), Basketball.

119+ hours of community service: Camp Leader, YMCA Camp Campbell, 89 hours supervising 190+ students at a 4-day overnight science camp (Dec 2025); 30+ additional high school hours across park and tree cleanups, abseiling assistance, and Red Cross activities.
